EDUCATION

St. Joseph's Institute of Technology
Bachelor Of Engineering in Computer Science
CGPA: 8.33/10.0

Chennai,TN
Sept 2024– Present

EXPERIENCE

Web Developer Intern | Zuntra Digitals Pvt. Ltd

Nov 2025– Dec 2025

- Developed BookieReserve, a web-based platform for managing bookings and reservations efficiently.
- Designed responsive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Implemented booking management and reservation tracking features to enhance user experience.
- Utilized Git and GitHub for version control, testing, debugging, and collaborative development.

Data Analyst Intern | Trios Technologies Pvt. Ltd

June 2025

- Gained hands-on experience in Python programming and Data Science concepts through practical assignments and projects.
- Worked with data analysis and data preprocessing techniques to extract meaningful insights from datasets.
- Applied Python libraries and tools for data manipulation, visualization, and problem-solving tasks.
- Enhanced knowledge of data science workflows, including data collection, cleaning, analysis, and reporting.

Gemini Student Ambassador | Team Gemini (Google)

June 2026

- Promoted Gemini AI tools and initiatives among students through workshops and awareness campaigns.
- Created technical and social media content to increase student engagement with AI technologies.
- Collaborated with fellow ambassadors to organize events and drive community participation.
- Represented the program on campus and contributed to building an AI-focused student community.

PROJECTS

Underwater Mine Detection | Pytorch, YOLOv8, CBAM, U-Net, PatchGAN

- Developed a YOLOv8-based underwater ordnance detection system, achieving a mAP@0.5 of 0.92 in low-visibility and high-silt environments.
- Enhanced model robustness using GAN-based data augmentation, reducing the false-positive rate to 4% for reliable detection.

BookieReserve – Booking Management System

- Developed a web-based reservation platform that enables users to make and manage bookings efficiently.
- Implemented responsive design principles to provide a seamless experience across multiple devices.
- Enhanced usability through structured navigation and interactive user interface components.

SKILLS

Languages: Java, Python, Python For Data Science,HTML, CSS, JavaScript, SQL.

Developer Tools: Git, GitHub, VS Code, Postman, MySQL Workbench,Figma

Technologies/Frameworks: React, Node.js, Express.js, RESTful APIs, MySQL

Productivity Tools: Microsoft Excel, Microsoft PowerPoint

ACHIEVEMENTS AND CERTIFICATIONS

- **Patent Published:** “GAN-Augmented Attention Network for Real-Time Underwater Mine and Anomaly Detection”
- **MSME** TOP 8th position (2025)
- **NPTEL-** Python for Data Science and Design Thinking
- **INFOSYS:** JAVA , OOPS in Python , Introduction to H2O using Python
- **KNIME International Certificate** : Data Literacy Basics
- **Cisco Networking Academy:** Data Science Essentials with Python
- **CURSA** : Python for Complete Beginners
